

DO NOT drop the no call list. I don't care if it does affect the ability of telemarketers to do business! They are a pain at all times, and never have been anything but a pain. I would rather get rid of my phone service altogether than deal with them anymore. You DO NOT have the right to eliminate a no call list that is OVERWHELMINGLY supported by the residents of our state. We have spoken, and taken care of what is OUR business. Leave it alone!
